Coming before the California State Legislature are three bills that I **strongly** encourage you to vote **NO** on:

AB 1602 / Low (D) |

Prohibits an insurer from either selling or advertising liability coverage for bodily injury or property damage resulting from the insured's discharge of a personal firearm.

AB 1292 / Bauer-Kahan (D) |

Highly technical bill that requires the administrator of a will or trust to have an unexpired handgun safety certificate (which doesn't exist) if the estate or trust includes a handgun.

AB 18 / Levine (D) |

Seeks to impose an excise tax on the sales of handguns and semiautomatic rifles and requires the revenue collected from that tax to be used to fund grants through the CalVIP program.

I will be watching your votes on these bills.
